modern tools such as gis and remote sensing are increasingly used in the monitoring of agricultural resources the developments in gis technology offer growing opportunities to agricultural economics analysts dealing with large and detailed spatial databases allowing them to combine spatial information from different sources and to produce different models the availability of these valuable sources of information makes the advanced models suggested in the spatial statistic and econometric literature applicable to agricultural economics this book aims at supporting stakeholders to design spatial surveys for agricultural data and or to analyse the geographically collected data this book attempts to describe the main typology of agricultural data and the most appropriate methods for the analysis

together with a detailed description of the available data sources and their collection methods topics such as spatial interpolation point patterns spatial autocorrelation survey data analysis small area estimation regional data modelling and spatial econometrics techniques are covered jointly with issues arising from the integration of several data types the theory of spatial methods is complemented by real and or simulated examples implemented through the open source software r

computer simulation programs have been developed based on experimental data as well as theory to simulate the performance of current motor vehicles over all types of driving cycles abstract

what you get 50 competency based q sstep wise marks breakdown educart cbse economics class 12 sample papers 2024 25 on latest cbse sample paper of 5th sep 2024 based on the cbse sample paper released on 5th september 2024 includes sample papers based on the new analytical exam pattern detailed explanations for every solution includes step wise mark breakdown table for every question most likely sets of sample papers with answer booklets to prepare in an exam like environment caution points tips tricks and related ncert theory for concept clarity why choose this book new sample papers help prepare as per the revised pattern on an increased percentage of analytical questions

the exponential growth of disruptive technology is changing our world the development of cloud computing big data the internet of things artificial intelligence machine learning deep learning and other related autonomous systems such as self driving vehicles have triggered the emergence of new products and services these significant technological breakthroughs have opened the door to new economic models such as the sharing and platform

based economy as a result companies are becoming increasingly data and algorithm driven coming to be more like decentralized platforms new transaction or payment methods such as bitcoin and ethereum based on trust building systems using blockchain smart contracts and other distributed ledger technology also constitute an essential part of this new economic model the sharing economy and digital platforms also include the everyday exchange of goods allowing individuals to commodify their surplus resources information and innovation technologies are used in order to then match these resources with existing demand in the market online platforms such as airbnb uber and amazon reduce information asymmetry increase the value of unused resources and create new opportunities for collaboration and innovation moreover the sharing economy is playing a major role in the transition from exclusive ownership of personal assets toward access based exploitation of resources the success of online matching platforms depends not only on the reduction of search costs but also on the trustworthiness of platform operators from a legal perspective the uncertainties triggered by the emergence of a new digital reality are particularly urgent how should these tendencies be reflected in legal systems in each jurisdiction this book collects a series of contributions by leading scholars in the newly emerging fields of sharing economy and legal tech the aim of the book is to enrich legal debates on the social economic and political meaning of these cutting edge technologies the chapters presented in this edition attempt to answer some of these lingering questions from the perspective of diverse legal backgrounds

this journal attempts to fill a gap between the general interest press and other academic economics journals its articles relate to active lines of economics research economic analysis of public policy issues state of the art economic thinking and directions for future research it also aims to provide material for classroom use and to address issues relating to the economics profession
